8. **Normalization**

8.1 MHT-CET 2019 will be conducting examinations on multiple shifts. The candidates will be given different sets of questions in every shift and it is quite possible that in spite of all efforts of maintaining equivalence among various question papers, the difficulty level of these question papers administered in different shifts may not be exactly the same. Some of the candidates may end up attempting a relatively tougher set of questions when compared to other shifts. The candidates who attempt the comparatively tougher examination are likely to get lower marks as compared to those who attempt the easier one. In order to overcome such a situation, **Normalization Method** will be used for ensuring that candidates are neither benefitted nor disadvantaged due to the difficulty level of the examination.

8.2 The process of Normalization is an established practice for comparing Candidate scores across multi shift/Sessions papers and is similar to those being adopted in other large Educational Selection Tests conducted in India.

8.3 MHT-CET-2019 Candidates will be ranked by their Normalized Score. Percentile Method will be used for ranking the candidates.

8.4 Percentile Scores: Percentile scores are scores based on the relative performance of all the Candidates who have appeared for the CET examination. Basically the marks obtained are transformed into a scale ranging from 100 to 0. **The Percentile Score indicates the percentage of candidates that have scored BELOW that particular score in examination. Therefore, the topper (highest scorer) of Examination will get the Percentile of 100. The marks obtained in between the Highest and the Lowest scores are also converted to appropriate Percentiles. Lower most candidate will get Percentile of 0.**

8.5 The Percentile Scores will be calculated up to 5 decimal places to avoid bunching effect and reduce ties. The Percentile score of a Candidate is calculated using the following formula:

$$\frac{100 * (\text{No. of candidates in exam with normalized marks} < \text{the candidate})}{\text{Total no. of candidates in the exam} - \text{No. of toppers in the shift}}$$

Special Note:

- 1) Percentile score is not the same as percentage of marks obtained.
- 2) Candidate applying for MHT-CET 2019 is deemed to have accepted this Method.
